LOCKHART

TILE SPACING CLIPS

Consistent spacing.
Professional Results.
Every time.

Lockhart Tile spacing clips are designed to deliver perfectly level and evenly spaced tiles with speed and ease.

WHY CHOOSE LOCKHART CLIPS?

SAVE TIME
Speeds up installation and reduces lippage, saving time on every job.

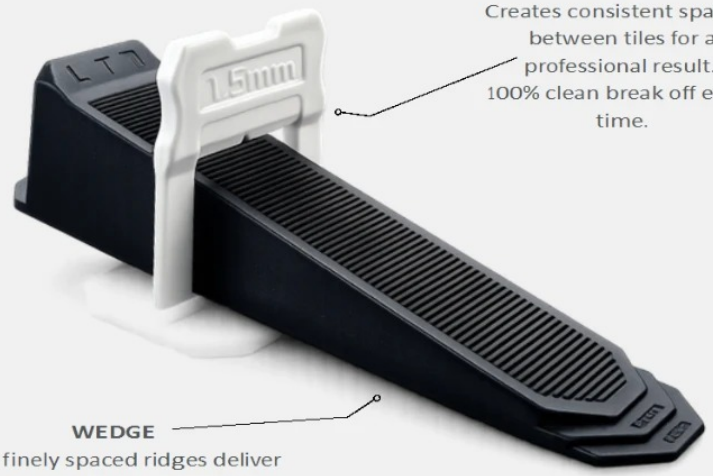

PERFECTLY ALIGNED TILES
Ensures uniform spacing and consistent tile alignment.

PROFESSIONAL FINISH
Achieve a clean, flat finish with minimal effort for removal with 100% clean break off.

EASY INSTALLATION
Low profile base for ease of installation.

DURABLE & RELIABLE
Made from premium materials for strength and durability.

SUITABLE FOR ALL TILE TYPES
Ideal for ceramic, porcelain, stone and large format tiles.

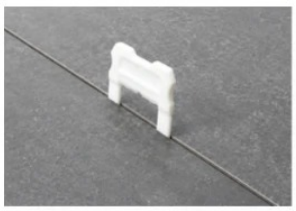

CLIP
Creates consistent spacing between tiles for a professional result. 100% clean break off every time.

WEDGE
More finely spaced ridges deliver greater control during installation, allowing precise adjustments for the exact tension needed every time.

PRODUCT TYPE	JOINT SIZE	TILE THICKNESS
Standard Clip	0.8mm	3–15mm
Standard Clip	1mm	3–15mm
Standard Clip	1.5mm	3–15mm
Standard Clip	2mm	3–15mm
Standard Clip	3mm	3–15mm
Stone Clip	1.5mm	10–22mm
Stone Clip	1.5mm	20–30mm
Stone Clip	1.5mm	30–40mm

HOW TO USE

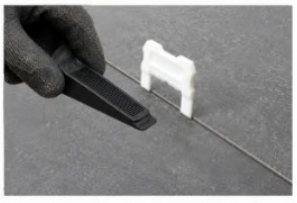

1. PLACE CLIP
Insert the clip under the tile edge at each corner.

2. INSERT WEDGE
Slide the wedge through the clip to engage and level the tiles.

3. TIGHTEN
Squeeze or press the pliers until tiles are level and secure.

4. SET & REMOVE
Once adhesive is set, simply remove the wedge and break off the clip. Clip will break off at the grout line.
